Unique Device Identification Solutions for FDA Class II and Class III Medical Devices

# Meet the FDA's new requirements for Unique Device Identification (UDI)

FLEXcon's labeling solutions meet the FDA's requirements for Unique Device Identification for Class II and Class III medical devices. They provide for quick, easy, and accurate identification for tracking of medical devices throughout their lifetimes. These labeling solutions enable doctors, nurses, and other healthcare providers to quickly identify their medical devices in the case of an adverse event or

simply to research device operating directions and other pertinent information. Simply scanning the device's linear or 2D barcode provides access to all pertinent and critical device information that medical professionals are using from the Global Unique Device Identification Database (GUDID) called for by the UDI initiative.

## FLEXcon® MedFLEX® for Lifetime Device Identification and Tracking

### FDA COMPLIANCE:

- Complies with IEC 60601-1 3rd Edition, as amended, durability rub tests
- Achieves FDA's Title 21 Part 801 labeling requirements
- Compatible with AIDC technology for digital tracking

### UL-RECOGNITION:

- Certified with a variety of thermal transfer ribbons
- UL-recognized when printed via Jetrion 4900 UV Inkjet System
- Certified with inks from four leading manufacturers
- Available for immediate UL adoption

### APPLICATIONS:

- UDI/Component Tracking
- Warning/Instructional Markings
- Compliance Labels
- Nameplate/Brand Identity Labels

### ROBUST LABEL SOLUTIONS:

- 2 mil polyester printable base films in clear, white and silver
- 1 mil overlaminate polyesters; gloss and matte
- Topcoated for a variety of print technologies, including thermal transfer
- Our highest-performing acrylic adhesives with a variety of tack and shear levels
- 50 lb. kraft or glassine liner
